For Immediate Release

Town of Metaline Falls earns Risk Management Award

The Town of Metaline Falls was recognized at the AWC Risk Management Service Agency (RMSA) Annual Meeting in Chelan for their commitment to proactive risk management, improving community safety, and contributing to lower insurance costs. Through their efforts to strengthen risk awareness, reduce exposures, and improve claim outcomes over the past year have earned them RMSA's Risk Management Achievement Award.

Effective risk management practices are more than reducing claims. It's about creating safer workplaces and communities, protecting public resources, and managing liability risks to keep municipal operations running effectively.

RMSA members share in the costs of coverage as part of a pool of local governments. By preventing incidents that can lead to claims, proactive risk management helps protect employees, residents, and public resources while keeping losses low. Fewer losses also help control costs across the pool and strengthen RMSA's ability to provide sustainable and affordable coverage.

A program of the Association of Washington Cities, RMSA is a municipal risk pool protecting the employees, assets, and officials of 116 of Washington's cities, towns, and special purpose districts from property and liability risks and costs. RMSA partners with its members to prevent losses, build resiliency, and protect the services communities rely on every day.
